NO. 32.

GOOD ROADS TRAIN COMING.

Will Reach Henderson Friday, August 4th—Every Citizen of the County Invited to See the Demonstration in Good Roads Building.

The citizens of this section will be given a fine opportunity to learn about the importance of good roads and the best methods of building and keeping them in repair, when the "Road Improvement Train," being operated by the Southern Railway and affiliated lines, working in conjunction with the United States Office of Public Roads, reaches Henderson on Friday, August 4th, at 10 o'clock a. m.

The train consists of lecture and demonstration, exhibits and a sleeping car, and is accompanied by Messrs. L. E. Boykin and H. S. Fairbanks, two government road engineers, who from wide experience are qualified to give the most valuable information on good roads building. W. J. Hurlbut, of the Land and Industrial Department of the Southern Railway, goes with the train.

It is the object of the "Road Improvement Train" to not only stimulate interest in the good roads movement but to give practical instruction in the building of roads and their repair. President Pinley of the Southern Railway is an ardent good roads advocate and realizing the vast economic importance of a system of improved highways to the people of the South, made it possible to have this "Good roads school on wheels" visit all the territory served by the Southern Railway and allied lines in order that the people might have the opportunity to receive the information as to the improvement of roads which it affords.

The Southern Railway, at a great expense, is handling this train without charge to the government or the people and all the lectures and demonstrations are free. The lectures and exhibits are bound to prove helpful to all interested in good roads and the experts will be ready to answer all questions whose solution may be puzzling the individual as to how best to improve his road.

The working models will be shown in actual operation, the motor power being furnished by a gasoline engine installed for the purpose, and with these the experts are enabled to explain what materials make the best roads and how they are made and repaired at the smallest necessary cost.

The "Road Improvement Train" will be on the road continuously all the summer and fall completing an extensive tour over the whole South at Richmond, Va., at a good roads convention to be held there in October. The tour began at Mobile, Ala., May 1st, and a warm reception has been accorded the train at all stops.

Those in charge of the train extend a cordial invitation to the people of this community to attend the exhibition. All county officials and road supervisors are asked to take part and the ladies will be especially welcome.

Superintendent Alderman's Report.
In his report to the city school board Superintendent J. T. Alderman places the value of the school property at \$47,500. Of this amount \$15,000 is invested in the colored school property. The school census for the township shows 2,587 children of school age, about 1,424 of whom are in the public schools and about 300 in private schools here and elsewhere. About 100 of the latter number attend the colored institute here. Only 69 per cent of the white children are regular attendants, and 61 per cent of the colored children. The reason for this rather bad showing in average attendance as compared with that of other cities in the State is found in the fact that others, contrary to law, count as regular attendants children who have been absent more than three days and are thus enabled to make a much better showing. Attention is directed to this fact in order that our people may understand why the showing of average attendance at our city schools is not so large as that made by other cities in the State. Of our white population 59 per cent is in the public schools, and 51 per cent of the colored population. Nineteen teachers are employed for the whites and nine for the colored.

We'll Take a Peep at It.
Says the Henderson Gold Leaf: "We hope it does not make Charlotte hoggish with jealousy to hear Raleigh boasting herself the future convention city of the State." Not at all. Neither Charlotte nor Raleigh could have all the conventions and it would please us to see Raleigh secure a liberal share. This it should have in recognition of its enterprise in having built an auditorium that is architecturally a beauty and in finish one of the finest in the country.—Charlotte Chronicle.

That is the proper spirit. There will be enough conventions to keep both Charlotte and Raleigh busy. We appreciate the kind words about our auditorium and when it is finished we expect to invite the Gold Leaf and all our good friends to see it. Editor Harris describes it thus: "It is architecturally a beauty and in finish is one of the finest in the country." Yes, Wide-Awake Raleigh is going to be the convention city, but that does not keep us from being proud that Charlotte, too, has her own splendid auditorium.—Raleigh Times.

BRIEF LOCAL NEWS ITEMS.

Mrs. L. T. Edwards is visiting her granddaughters, Misses Mame and Lucy Harris, at Washington, D. C.

Miss Agnes Buchan, of the community of Flat Rock church, who has been right sick with fever, is now improving.

In trading with our advertisers it will only take a small portion of your time to mention the fact that you saw their ad. in the Gold Leaf.

Misses Leslie and Sophia Pool left Friday for Elm City to visit their uncle. They will go to Wilson to visit relatives before returning home.

Have you received a sample copy of the Gold Leaf? If so, it is a personal invitation to you to become a subscriber and have it visit you regularly every week.

Rev. O. N. Marshall, former pastor of North Henderson Baptist church, but is now living at Durham, spent part of last week in Henderson. His friends were glad to see him again.

The protracted meeting at Flat Rock Methodist Protestant church will begin the third Sunday in September. The pastor, Rev. R. E. Stubbins, will be assisted by Rev. J. E. Pritchard, who is well known to that congregation.

The Sunbeam Band, of Island Creek church, will give an ice cream supper Wednesday night, August 2nd, at Loneoak schoolhouse near Kelly's cross roads. The proceeds of the supper will be used for the benefit of the new church. The public is cordially invited.

Read our combination offer on the fourth page of this paper and avail yourself of the opportunity thus offered to secure The Gold Leaf (your county paper) and the Raleigh Progressive Farmer and Gazette (a reliable farm journal) both for \$1.05 a year.

Wild Cat Mutuals Exposed.
Insurance Commissioner Young desires to call the attention of the citizens of the State to the recent raid made by the commissioner of insurance upon a certain fraudulent insurance company operating in Pennsylvania. This investigation was undertaken by Commissioner McCulloch under a law passed by the Pennsylvania Legislature. This is very gratifying, as it seems that honest associations of this character were allowed to operate in Pennsylvania, with impunity. Commissioner Young would call the attention of the citizens of the State, if any of them hold insurance in unlicensed companies, to the list of these firms as given below, and ask them to check up their policies and see whether they hold any contracts of these concerns or not.

The Integrity Mutual Fire Insurance Company, the Columbia Mutual Fire Insurance Company, the Royal Mutual Fire Insurance Company, the Fairmount Mutual Fire Insurance Company, the Colonial Mutual Fire Insurance Company, the Imperial Mutual Fire Insurance Company, the Metropolitan Mutual Fire Insurance Company, the Mercantile Mutual Fire Insurance Company, the Peoples Mutual Fire Insurance Company, the George Washington Mutual Fire Insurance Company, the Northern Underwriters Insurance Company, the Royal Fire Underwriters Insurance Company, and the Aetna Fire and Marine Insurance Company, of Delaware.

Kidney Diseases Are Curable
under certain conditions. The right medicine must be taken before the disease has progressed too far. Mr. Perry Pimam Dale, Texas, says: "I was down in bed for four months with kidney and bladder trouble and gall stones. One bottle of Foley's Kidney Remedy cured me well and sound." Ask for it. For sale by all druggists.

To the Tobacco Farmers.
To the Editor of the Gold Leaf: Forty-six years ago, after I had just returned from a four year's service in the Confederate army, I began the work of growing tobacco. After a few years I decided, or rather discovered, that there were certain dates better for sowing than others. I spent years of diligent study of the nature of the weed whirling and at last I have found the way to tell the exact dates in each season.

To explain, let me say that tobacco has a sap the same as a tree—tobacco has a sap that is an oily substance, which is its natural possession. Oil and water can't mix and when the sap (water) rises in the tobacco stalk it runs the oil out through the pores of the leaves and if then cut tobacco will be about worthless, as it cures mean, and when finally cured is black and "choppy." But if tobacco is cut with the natural oil in it, there will be no trouble in curing and the oil causes it to be oily and waxy. For instance, farmers have experienced cutting tobacco one week and have good success and then cut again of the same piece of ground a few days later and have no luck with it at all.

I shall be glad to correspond with any tobacco growers who will enclose stamp for reply.

Yours truly,
D. V. DAVIS,
Mocksville, N. C. R. 3.

Those Who Take Foley Kidney Pills
For their Kidney and Bladder ailments, and for annoying urinary irregularities are always grateful both for the quick permanent relief they afford, and for their tonic and strengthening effect as well. Try Foley Kidney Pills. For sale by all druggists.

Editor Pinnix Agrees With Dr. Hicks.
The editor of the Ledger finds his heart beating in unison with Mr. T. Hicks. He too dreams dreary dreams sometimes, and his imagination runs far afield. The article written for the Gold Leaf by Mr. Hicks and copied by the Ledger will be found in another column. Let everybody read it, ponder over it, resolve to make some of the things come to pass, both in Granville and in Vance.—Oxford Public Ledger.

NEW ENTRY AT ELMWOOD.

To Be Presented to the Cemetery Association by the Forestry Branch of the Civic League With Appropriate Ceremonies at a Date to Be Announced Later.

The stone work on the entry to Elmwood cemetery was completed last week. The iron gates and the fencing, which is to be placed on the coping, will be put up some time soon. The new entry is a beautiful piece of masonry, and was done under the supervision of Mr. William Grey, a native of Scotland, who served an apprenticeship of five years in that country. The entry is concave in shape and is built of beautiful blue granite. It has two walkway gates and one driveway gate. On each side of the latter gate there are two large posts with a white square in the front near the top. On the left square is the following inscription: "Elmwood Cemetery, 1879." On the right square is, "In Memory of Our Dead, 1911."

Those at each side of the two walkway gates are a little lower than those at the driveway entrance and all have large caps on the top. When completed the entry will cost about \$700, which amount was raised by contributions from the people. These were solicited by a special committee of the Forestry Branch of the Civic League.

Arrangements are being made to have waterworks put in the cemetery very soon and a hedge will be planted along the front part this fall, which is hoped will be extended all around it later on.

As soon as the iron works arrive and are put in position, the new entry will be presented to the cemetery association. A program of exercises has been arranged for that occasion and the date will be announced later. The exercises will be held at the cemetery.

It is said that Mrs. Ann Carroll, grandmother of Mrs. B. S. McCoin, was the first person buried in Elmwood cemetery, which was started in 1879.

Honest Medicines Versus Fakes.

President Taft's recent message suggesting an amendment to the Pure Food and Drug law in its relation to prepared medicines, does not refer to such standard medicines as Foley's Honey and Tar Compound and Foley's Kidney Pills, of which are true medicines carefully compounded of ingredients whose medicinal qualities are recognized by the medical profession itself as the best known remedial agents for the diseases they are intended to counteract. Compound has been a standard remedy for coughs, colds and influenza, for throat, chest and lungs for children and for grown persons, and it retains today its pre-eminence above all other preparations of its kind. Foley's Kidney Pills are equally effective and meritorious. For sale by all druggists.

Shall We Have The New Road?

Says the News and Observer: "The proposed railroad from Henderson to Greensboro, via Oxford and Roxboro, would traverse one of the finest sections in North Carolina. It would be a blessing to Greensboro, to every town and the fine agricultural section through which it will pass."

Commenting on the foregoing paragraph, the Oxford Public Ledger says: "The News and Observer is entirely correct in thinking that the building of this road would be a great thing for every section of country through which it would run. The Henderson Gold Leaf also has a word to say in reference to it, which very wisely urges more activity on the part of Oxford and Henderson citizens. Should the road be built and carried by the more northerly route, as the Gold Leaf intimates there is a possibility that it might, there is no telling the damage that we might sustain. We see how Henderson went to sleep at the switch and how North Carolina went to sleep in the comfortable condition, with the result that another town grew up elsewhere that should have been a part of the Vance capital.

"It is stated on very excellent authority that there is no question of the feasibility of building the road and that it will pay well, the question of raising finances for the construction being the only matter under consideration. Locally more interest must be taken in it, for it looks as if it will surely be built somewhere before very much longer."

Vance County Ladies Presented Vest to Henry Clay.

Maj. O. R. Smith, of this place, has a library portrait of Henry Clay that he found in the garret of an old house in Robeson county several years ago. It is an oil painting and was made by A. Gilbert, an English artist, in 1845.

The portrait shows that Mr. Clay had on a white silk vest which, Mr. Smith says, was made near Henderson. It is learned that Misses Lucilla and Harriet Harris, who lived at Harris' cross roads about four miles from this place, raised silk from their cocoons, spun it and wove the cloth of which Mr. Clay's vest was made. These young ladies, it is said, rode to Raleigh on horseback and presented the vest to Mr. Clay, who wore it when he made his famous speech in that city in 1844.

Misses Lucilla and Harriet Harris were cousins of Mrs. L. T. Edwards, of this place, who says that a piece of this silk goods is now in the museum at Raleigh and is marked "Spun and woven by Lucilla and Harriet Harris."

Hay Fever and Summer Colds

Must be relieved quickly and Foley's Honey and Tar Compound will do it. E. M. Stewart, 1034 Wolfram Street, Chicago, writes: "I have been greatly troubled during the hot summer months with hay fever and find that by using Foley's Honey and Tar Compound I get quick relief. Many others who suffer similarly will be glad to benefit by Mr. Stewart's experience. For sale by all druggists."

A Child-Lot on Every Farm.

We can never develop country life effectively until the homes and the schools are organized collectively. We must project the school into the home and the home into the school. My suggestion, therefore, is that on every farm there should be a piece of land definitely set aside for the children, different methods of planting and the purpose of developing intellectual interest in the farm and in country life. This might be a half-acre or an acre near the house and the bars, permanently set aside and perhaps enclosed with rows of trees and bushes and effective planting of flowers. In this area many kinds of tests and demonstrations could be made. Here new varieties could be tried; fertilizers in a small way could be demonstrated; spraying could be studied; different methods of planting and of tilling and of growing could be illustrated; small breeding plots could be erected; perhaps a small fish pond could be established, and many other tests could be made. It could be made a proving-yard and collecting-yard for the various problems that arise in the course of the farm work and which the children would be interested in their account to try out.

It should be just as much a part of farm establishment to provide such a side lot as to erect a milkhouse or carriage shed, a clothes yard, a well-house, chicken yard or any other accessory of the farm.—School and Home.

What the Kidneys Do.

Their Unceasing Work Keep Us Strong and Healthy.

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily; when unhealthy they do not do their duty and the impure matter in the blood. This brings on many diseases and symptoms—pain in the back, headache, nervousness, hot, dry skin, rheumatism, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep your kidneys healthy you will have no trouble with your kidneys.

Mrs. H. A. Draper, 229 Pettegrove street, Henderson, N. C., says: "I do not know how to express my gratitude for the relief I have received from the Doan's Kidney Pills, as I know them to be a remedy of merit for the purposes for which their use is intended. Last spring I had an attack of kidney trouble and was feeling miserable when I began using Doan's Kidney Pills. They soon relieved me and I have not had any need of a kidney medicine since." Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Guarded by Rattlesnakes.

James Stener, a mountaineer, was found dead besides a bridge leading to his home in the hills here. Near him were four rattlesnakes fastened by fangs to the rocks. He had been bitten to death. A party of fishermen killed the snakes and from the man's wife, in the cabin across the stream, they learned that the dead man had tied the snakes there because he was jealous and feared his wife would have visitors in his absence.

For five years Stener had kept snakes at the bridge, the woman said, and she never left the place in that time. She said her husband became insanely jealous after she had accompanied him to a dance and allowed other men to dance with her. Next day he procured the snakes and told her she would never leave the house while she was his wife.

Hot Weather Hurts the Skin

Poisonous perspiration causes rashes, hives, blotches, pimples and pruritus, and often the beginning of serious skin trouble. To wash away the poison entirely, apply a simple solution known as D. D. D. Prescription for Eczema. D. D. D. is generally sold in \$1 bottles, but for 25 cents we can now give you enough to prove that the very best drops soothe and heal the inflamed skin as nothing else can.

We vouch for the wonderful properties of D. D. D., for we know that it brings instant relief for all kinds of skin trouble. W. W. Parker.

Lightning Rods.

"With it pay to use lightning rods on a building that is surrounded by trees." I have seen many houses that were rodless but struck with lightning. A badly constructed rod may be worse than none. While a well-constructed rod is a good protection, the rod should have good platinum points, and should be perfectly continuous to perfectly damp soil in the ground. Never use the old-fashioned glass insulators on the rod. If the building has a metal roof, connect the rod with it, and if a wooden roof, connect the rod with tin rain water gutters. Consult a reliable dealer, and do not let a traveling lightning rod man swindle you, as most of these traveling fellows will. Study what the leading dealers say in regard to their rods, and then buy it and put it up yourself, make sure that the earth connection is deep enough to have the rod always in damp ground.—W. F. Massey, in Progressive Farmer.

Didn't Hog the Old Man.

A young man in Greensboro, who presumably sows wild oats, left home several months ago with a nice "wad" in his pocket, but like ice in this kind of weather, it melted fast. The Record says that "one day not long ago he found himself in Seattle, almost dead broke, and wired his father: 'On the hog, send me fifty.' On receipt of this the 'Old Man' wired the young gentleman: 'Rule him home; out of meat.' The boy is at home now, but he declares he did not ride the hog home, because it is suspected he rode the blind baggage a good deal of the time."

EXCURSION

PORTSMOUTH-NORFOLK
—TO—
SEABOARD
AIR LINE RAILWAY

The second excursion of the season to Portsmouth-Norfolk via the Seaboard Air Line from Raleigh-Durham, including Wake Forest, Franklinton, Louisville, Oxford, Henderson and intermediate stations will be run on

TUESDAY, AUGUST 1.

This will be a good opportunity to visit Norfolk, Portsmouth, Virginia Beach, Ocean View, Old Point Comfort, Newport News and various other places of interest, and spend two whole days at the famous resorts. Tickets will be good returning on any regular train up to No. 93 on night of August 3rd. Schedule and round trip rates follow:
Leave Raleigh 11:35 a. m., rate \$3.00.
Lv. Louisville 11:30 a. m., rate \$3.00.
Lv. Franklinton 12:35 p. m., rate \$2.75.
Lv. Oxford 11:55 a. m., rate \$2.50.
Lv. Henderson 1:06 p. m., rate \$2.50.
